Course Units:

| TITLE | CODE | DESCRIPTION |
|----------------------------------|---------|---|
| Practicum and Observation | | |
| Supervised Practice | AMID112 | Supervised practice workshops in which the student undertakes, over the course of the study programme, to complete the required amount of supervised practical work with the various materials in order to understand both their theoretical and practical applications. Sessions are structured to create a dynamic situation in which students can individually demonstrate how they would practically present activities to the child and then to discuss constructively with the group the effectiveness of that presentation and its essential elements. To relate the practicalities of the materials in respect of the development of the child. |
| Observation and Student Teaching | AMID113 | Observation is at the core of the Montessori guide's work. During the course students undertake 250 observation hours of children of different ages. Work experience for a mandatory number of hours in 0-3 environments must also be completed satisfactorily. Each student undertakes a self-assessment of their practice and is also assessed by those responsible for the environment. |

Course Units:

|-----------------------------|---------|--|
| Additional Sessions | | |
| Theory Discussions | AMID114 | Theory Discussions are structured to create intimate discussion groups in which students can individually and collectively deepen their understanding of Montessori philosophy and pedagogy in the light of their growing experience. Students may prepare seminar papers to present to the group. |
| Review Sessions | AMID115 | Review Sessions enable students to review their understanding of Montessori philosophy and pedagogy in the light of their growing experience and to prepare for examinations. |
| Classroom Management | AMID116 | Seminars are structured to involve students in discussion on both practical and theoretical aspects pertinent to running a school. |
| Parent-Infant Sessions | AMID117 | Parent-Infant Sessions gives an overview of running Parent-Infant programmes. |
| Supervised Reading Sessions | AMID118 | The students are to read books and make use of them for both their written work/essays as well as practice with material and related discussions. The course reading list includes required and recommended titles. |
| Course Work | | |
| Written Work | AMID119 | Each student is required to make reference manuals based on each piece of equipment shown to them. These reference manuals reflect the curriculum and are evidence of the student's synthesis of knowledge. |
| Material Making | AMID120 | Under supervision students will also engage in material making. All such materials are checked by the Trainer(s). |

Association Montessori Internationale

The Association Montessori Internationale (AMI) was founded in 1929 by Maria Montessori to maintain the integrity of her life's work, and to ensure that it would be perpetuated after her death. AMI is the recognised international authority on Montessori education. During its long history AMI has fostered the growth and development of Montessori programmes and teacher training, and worked to support the development and education of children and young adults in a vast variety of settings throughout the world.

AMI is a Non-Governmental Organisation (NGO) associated with the United Nations Department of Public Information (since 1985) and an NGO in operational relations with UNESCO (since 1962).

AMI

The Mission

The mission of the Association Montessori Internationale is to support the natural development of the human being from birth to maturity, enabling children to become the transforming elements of society, leading to a harmonious and peaceful world.

AMI Montessori Training

The Association Montessori Internationale accredits training centres throughout the world. These centres offer AMI diploma courses that are internationally recognised for their high standard and authenticity.

The courses offered by the Association Montessori Internationale prepare adults to work with children at the following levels: Assistants to Infancy (0-3), Primary (3-6), First Plane (0-6) and Elementary (6-12). Work is also underway to document the current body of knowledge relating to Montessori education for the 12-18 year age group and an Orientation for teachers (in collaboration with NAMTA) is available.

Each year thousands of teachers and classroom assistants are trained worldwide. The number of AMI teachers graduating is still less than demand which is due to the worldwide recognition of the quality of the AMI Diploma.

All training centres are staffed by highly qualified AMI teacher trainers, and a pedagogical team of experienced advisors ensures that the objectives of Maria Montessori's pedagogical principles are maintained. Students are examined by external examiners, appointed by AMI, to further ensure the high standard and integrity of the courses. Training centres may also run courses at more than one geographical site.
